

Tradera

Referral Compensation Program

Welcome to the Tradera family!

We are thrilled that you have joined Tradera, and we look forward to helping you grow financially with our platform. Our goal is to provide you with advanced resources that allow you to build the skills required to successfully trade the financial markets.

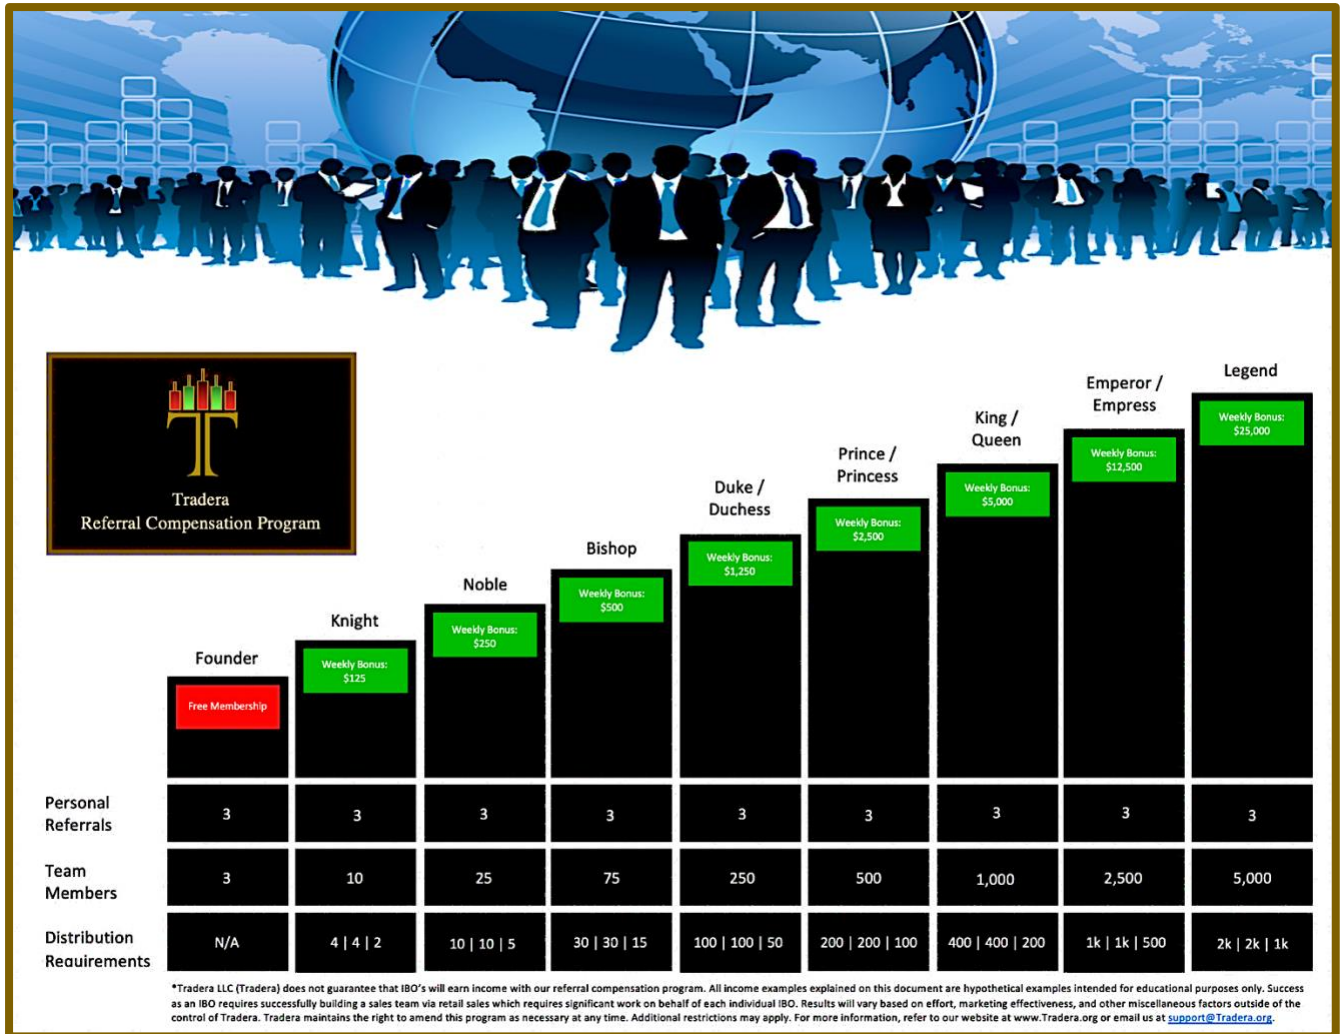

Our premiere trading platform offers a unique and rewarding opportunity to its members, and as you personally experience the power of the platform you will want to share the services with others. As an IBO with Tradera, your success will be measured by the financial reward you receive based on your efforts to share our services and build a sales team.

Here at Tradera, we consider all members family and strongly believe in rewarding our IBO's who share our platform with a lucrative and generous compensation. We look forward to having you as a business partner!

Sincerely,

Tradera Administration

Compensation Plan Overview

Tradera LLC (Tradera) does not guarantee that IBO's will earn income with our referral compensation program. All income examples explained in this document are hypothetical examples intended for educational purposes only. Success as an IBO requires successfully building a sales team via retail sales which requires significant work on behalf of each individual IBO. Results will vary based on effort, marketing effectiveness, and other miscellaneous factors outside of the control of Tradera. Tradera maintains the right to amend this program as necessary at any time. Additional restrictions may apply.

For more information, refer to our website at www.Tradera.org or email us at: support@Tradera.org.

Package Options

There are two membership options available for prospective Tradera members including a client package and an IBO package. The details for these two memberships are as follows:

1. CLIENT – The client package costs \$99 billed every 28 days. We strongly recommend all prospective members join as a client to experience the platform and its services personally before deciding to participate as an IBO in the company. The client package comes with access to all of Tradera’s services, but does not allow the member to participate in Tradera’s referral compensation program.
2. IBO – The IBO package costs \$15 billed every 28 days, and allows the member to participate in and be eligible for payouts via Tradera’s referral compensation program.

Note that members may choose to join with either package, or both packages. Once apart of Tradera, members may change their package subscriptions at any time from their back office.

Rank Qualification

1. Personal Referral Requirement: In order to officially qualify for any rank in Tradera’s referral compensation program, we require that the IBO has a minimum of 3 active personal client referrals. IBO-only referrals do not count towards this requirement.

2. Client Requirement: In order to officially qualify for any rank in Tradera’s referral compensation program, we require that the IBO has a minimum of 55% of their downline members enrolled as pure retail clients via the client package. If a member has an IBO package, that member will not count as a pure retail client.

3. Rank Determination: Ranks are calculated every Sunday night at midnight (Monday @ 12 AM CST), and payouts are processed during the following week. Only active retail clients will contribute towards your rank determination. In order to officially qualify for a rank and its associated benefits, you must qualify for the rank on the final day of each week when each affiliate / IBO's rank determination is made. There will be no exceptions made for the weekly rank determination deadline.

4. Team Members: Each rank requires a minimum number of total retail clients. The minimum amount for each rank is shown in the compensation plan overview. An individual may have many more retail clients in their sales team than the minimum required due to other requirements such as the distribution requirements for each rank.

5. Distribution Requirements: Each rank with the exception of Founder requires that the IBO builds 3 separate sales teams. Each sales team must meet the minimum retail client sales requirements as outlined in the compensation plan overview. The required minimum number of client sales per team is specific to that team, and team requirements do not shift based on volume. For example, Knight requires a minimum of 4 retail clients on team 1, 4 retail clients on team 2, and 2 retail clients on team 3. If an IBO has 4 retail client memberships on team 1, 2 retail client memberships on team 2, and 4 retail client memberships on team 3, they would not qualify for the position of Knight because their team distribution does not meet the specific requirements as outlined. Please note that you may fulfill all other requirements for a rank, but not officially qualify for it or receive the corresponding payout if your sales team does not meet the specific distribution requirements for that rank.

6. Personal Requirements: In order to officially qualify for any rank in Tradera's referral compensation program and its associated compensation, we require that the IBO has an active IBO Membership at the time of the rank calculation.

Rank Bonus Details

Any member who officially qualifies for a Knight or above rank will be eligible to receive the associated rank bonus for their given rank. The rank bonuses are calculated every Sunday at midnight, and processed the following week. IBO's will need to setup and provide a valid payment method and configuration in order to receive their commissions. Note that rank bonuses are subject to potential processing fees at the discretion of Tradera.

Free Membership Details

Any member who qualifies for the rank of Founder will qualify for a free membership. If a member de-ranks or no longer qualifies for their Free Membership, then Tradera will charge their default card on file for their subsequent autoship fees as applicable. Note that the funds for the Free Membership are not available for withdrawal by the member and may not be used for any other purpose other than to automatically cover that member's subscription fees. Also note that if a member qualifying for Free Membership at the position of Founder ranks up to a higher rank in the referral compensation program, they will no longer be receiving the Free Membership perk that Founders receive.

Income Disclaimer

Tradera LLC (Tradera) does not guarantee that affiliates / IBO's will earn income with our referral compensation program. Any and all income examples explained in our compensation plan and this document are hypothetical examples intended for educational purposes only.

Success as an IBO for Tradera requires successfully building a sales team via retail sales which requires significant work on behalf of each individual IBO. Results will vary based on effort, marketing effectiveness, and other miscellaneous factors outside of the control of Tradera.
